| | and /or soybean containing registered-biotech events. | | | meristem tissue using the plasmid vector PV-GMPQ/HT4 404. | <i>FATB1-A</i> suppression cassette and the <i>cp4 epsps</i> expression cassette was integrated into the soybean genome at a single locus. No backbone DNA sequences from plasmid vector PV-GMPQ/HT4 404 were detected in MON 87705. |
| Scientific Name | <i>Glycine max</i> (L.) Merr. | <i>Agrobacterium</i> sp. strain CP4 | <i>Glycine max</i> (L.) Merr. | - | - |
| Trade Name | High Oleic Soybean | - | - | - | - |
| Other Designations | Omni Soybean | - | - | - | - |

| | |
|-------------------|--|
| Country of Origin | Importers of commodities will have to provide their own sources. |
| Quantity | Importers of commodities/grains will have to provide the quantities they need to import. |
| Flight/Voyage No | Importers of commodities/grains will have to provide the flight/voyage no. |
| Port of Entry | Importers of commodities/grains will have to provide the port of entry. |
| Proposed Schedule | Importers of commodities/grains will have to provide the schedule of importation. |

***The following supporting documents are attached**

1. In the case of imported regulated article, notification from the exporter or country of origin in accordance with existing international agreements on the transboundary movement of genetically modified organisms;
2. Information on socio-economic, cultural and ethical considerations;
3. Copy of the proposed PIS for Direct Use, (Annex "F") including information required for evaluation of environmental and health impacts;
4. In cases of renewal, certified true copy of expired Biosafety Permit for Direct Use issued by BPI; and
5. Proof of payment of fees
6. To facilitate review of the application, the applicant may submit documents to show that the regulated article is allowed for commercial distribution as food and feed by the regulatory authorities in the country of origin; and poses no greater risks to biodiversity, and human and animal health than its conventional counterpart. If the regulated article is intended for use as feed or for processing into feeds, the applicant may submit documents to show that the regulatory authorities in the country of origin have likewise determined that the

regulated article poses no greater risks to biodiversity, and human and animal health than its conventional counterpart.

The undersigned certifies that based on his/her personal knowledge and/or authentic documents: (i) all the information in this application are true and correct; and (ii) this application contains all information and views on which to base a decision and includes relevant data and information known to the applicant which are unfavorable to the application. The undersigned likewise warrants that the Regulated Article is to be imported solely and exclusively for direct use as food and feed or for processing.
