

Republic of the Philippines  
Department of Agriculture  
**BUREAU OF PLANT INDUSTRY**  
692 San Andres St., Malate, Manila

## **Biosafety Permit for Commercial Propagation Number 25-003 Propa**

**Corn MON 87427** owned and licensed by Bayer CropScience, Inc., with office address at 8/F, Science Hub Tower 1, Campus Ave. cor. Turin St., McKinley Hill Cyberpark, Pinagsama, Taguig City 1630, has satisfactorily undergone biosafety assessment for commercial propagation pursuant to the DOST-DA-DENR-DOH-DILG Joint Department Circular (JDC) No. 1, Series of 2021. Further, the permit holder has satisfactorily complied with all requirements for the issuance of the biosafety permit for commercial propagation. This permit is hereby issued for the commercial propagation of the said regulated article.

This Biosafety Permit for Commercial Propagation shall not excuse the permit holder from complying with relevant regulations of other government agencies.

Issued on **February 12, 2025** at the Bureau of Plant Industry, San Andres St., Malate, Manila subject to conditions stated at the back of this permit. This permit shall remain valid unless revoked for any reasons set forth under Section 15.J. Revocation of Biosafety Permit for Commercial Propagation.

  
**GERALD GLENN F. PANGANIBAN, Ph.D.**  
*Director*  
Bureau of Plant Industry

### **Biosafety Permit Conditions**

1. The permit holder must comply with the monitoring strategy for possible weed evolution and other approved monitoring activities, submit regular report of seed sales, and conduct of any required technical studies;
2. The permit holder shall provide reference material (positive and negative controls) and validated detection protocol of the transformation event;
3. The permit holder shall not cause the planting and/or commercial propagation in areas that are not identified as agricultural lands; i.e., those classified as Alienable and Disposable (A&D) lands;
4. The permit holder shall immediately notify the Director of BPI, in writing, in the event that new information becomes available, indicating that the regulated article would pose greater risks to human health and the environment as compared to its conventional counterpart;
5. In the event that new information becomes available indicating that the regulated article could pose greater risks to human health and the environment as compared to its conventional counterpart, the permit holder shall, on its own, immediately take measures necessary to protect human health and the environment; and
6. The permit holder shall not cause the commercial propagation in areas where the local government unit has a known policy or ordinance prohibiting the propagation or entry of regulated articles. For this purpose, it shall include in the labeling of products that these are not intended for propagation in prohibited areas.

Violation of any condition shall lead to revocation of this permit as provided in the DOST-DA-DENR-DOH-DILG Joint Department Circular No.1, Series of 2021 Article VI, Section 15J. In the event new information becomes available indicating that the regulated article could pose greater risks to human and animal health and the environment as compared to its conventional counterpart, the permit holder shall, on its own, immediately take measures necessary to protect human and animal health and the environment.

*I have read and understood the Terms and Conditions herein set forth and I enter in this agreement voluntarily and with my express consent; I hereunto affix my signature with full knowledge of its legal effect.*
